American Security Products Company has been dedicated to manufacturing high quality, high security safes since 1946. We offer an extensive product line of over 400 standard models of burglary and fire resistant safes in every insurance classification from “B” rate to Underwriter’s Laboratories TL-15 and TL-30.

AMSEC is the largest and most respected safe manufacturer in the industry because:

- Our dedicated customer service representatives care about you.
- Fully staffed service department networked with thousands of factory trained technicians.
- Our quality control department assures that the products we build are the finest in the industry.
- State-of-the-art computer controlled manufacturing equipment helps us meet demanding deadlines and keeps us on the leading edge of technology.
- We are located in a major West Coast distribution point with direct access to all major domestic and international freight services.
- We specialize in developing custom safes to meet specific cash handling requirements for banks, restaurants, supermarkets, convenience stores and many other industries.
- Our engineering and design department is fully staffed and features the most advanced CAD system for rapid creation of sales drawings, design modifications and precise manufacturing blue prints.

For superior asset protection there is only one name you can trust for quality, service and reliability…AMSEC.

AMSEC reserves the right to incorporate any improvements and alter any specifications without prior notice. AMSEC reserves the right to update products as necessary. AMSEC is not responsible for typographical errors.
A GUIDE TO SAFE USAGE

REQUIRED FED EX / UPS PACKAGING

Additional packaging is required for all safes shipping via FedEx or UPS to protect the safe from transit damage. This excludes products already packaged for FedEx or UPS shipment.*

Maximum weight for FedEx or UPS is 150 lbs.

AMSEC will not be held liable for damages if this packaging is not requested at the time of order.

Order Part #4505400

Net up charge $8.00 per package.

*PB2 / WS1814
All BRUTE SERIES safes are designed to provide secure storage for documents, jewelry, precious metals and miscellaneous valuables at an economical price. When properly installed in a concrete floor, BRUTE SERIES safes provide excellent fire and burglary protection. BRUTE floor safes meet and exceed the requirements of the Insurance Offices Manual of Burglary Insurance. You may also add many options to customize your safe such as: a drop slot in the door, depository chute, digital keypad lock and keylocking dial to name a few. BRUTE SERIES safes may be installed in the floor, wall, cladding or within a larger safe.

**SUPER BRUTE & BRUTE**

**STANDARD FEATURES:**
- Black textured body and door.
- Large brass plated dial and black matte finish dial ring with matching handle.
- End user can get combination changes by just bringing the door to a locksmith.
- Attractive design offers strong reliable welds to protect against burglary attacks and reduce possible leakage.
- U.L. listed Group II key changeable lock, with relock and 1 million possible combinations.
- An additional spring-loaded relocking device, activated by a punching attack.
- Lock and relocks are protected by a large carburized hardplate.
- A handle activated locking mechanism consisting of three 1” diameter locking bolts. Each one is drive resistant, chromed steel with a long throw.
- One piece heavy duty dead bar behind hinge prevents removal of door even if hinges are removed during a forced entry attempt.

**SUPER BRUTE SERIES**

**ADDITIONAL FEATURES:**
- Door is designed to fit full body size, which greatly reduces any possible pry points.
- Doors are interchangeable within product group.
- Oversize floor plate ensures strong installation in concrete.
- Flush cover plate.
- Solid steel hinge mechanism using ¾” diameter steel hinge pins and internal mounting bolts.

**SUPER BRUTE SERIES**

**ADDITIONAL FEATURES:**
- The SUPER BRUTE’s new door jamb design is manufactured with state-of-the-art equipment, with built-in devices offering the ultimate protection against sledgehammer attack.
- “B+” rate door: ¾” solid steel plate door is standard.
- Doors are removable and interchangeable.
- A large, convenient 10¾” x 11½” door opening for bulky items.
- One sliding shelf with double wide model (B3700). Two sliding shelves with triple wide models (B5800).
- Attractive carpeted floor in every unit.

**For Slotted Door see Page 35**

**Super Brute Floor Safes**

**Lifetime Replacement Warranty:**
If your AMSEC Super Brute floor safe is subject of a sledgehammer or pry attack and is forcibly entered, AMSEC will replace or repair the safe (our option) with a current production model of comparable value - free of charge. The damaged safe must be returned freight prepaid to the factory within 30 days of the loss, accompanied by a properly filled police report. This warranty does not apply to damage or loss resulting from accident, alteration, unauthorized entry or improper installation. AMSEC’s limited warranty policy and procedures applies to any extended product warranties.
**BRUTE RECTANGULAR BODY, WIDE DOOR**

**ADDITIONAL FEATURES:**
- A large, convenient 11¾" x 16" door opening, for large bulky items or cash tray storage.
- B-rate door of ½" solid steel plate.

---

**MINI BRUTE**

**DOOR:**
- Black textured body and door.
- Large brass plated dial and black matte finish dial ring.
- ½" A36 solid steel plate. New steel guards protect lock and relock from accidental damage.
- U.L. listed Group II lock with relock. An additional relocking device, activated by punching attack.
- Heavy duty dead bar prevents removal of door during forced entry attempt.
- Convenient, reversible lift-out door with a heavy duty handle.
- Optional baffled drop slot in door

**BODY:**
- 8" square tubular "B" Rate construction.
- Universal jamb design allows the door to be positioned in all four directions.
- A flush cover plate for total concealment under a carpet.

---

FLOOR SAFES are engineered with advanced security features. STAR Tube safes have been the standard for gas stations, fast food, small retail establishments and home owners for over 50 years.

Low cost, combined with the various body styles and optional doors will fit almost any cash handling system. When properly installed in concrete, STAR® FLOOR SAFES provide maximum fire and burglary protection. Now, with the water-resistant dust cover, you get protection from water as well.

**“C” RATE LIFT-OUT DOOR FEATURES:**
- Manipulation resistant, unitized U.L. Group II key changeable lock protected by a revolving carburized hardplate.
- Removable dial and drive/drill resistant spindle preventing damage from burglary attack and additional protection from hold-up.
- Door, 7-1/4" clear opening, is 1-3/4" solid steel.
- Door is securely locked by three bolts each requiring over 25,000 pounds to shear.
- Each locking bolt has its own hardened steel positive relocking bolt.
- Body — Heavy “B” rate construction.

**OTHER FEATURES:**
- Water resistant, high impact molded dust cover with rubber “O”-ring seal does not rattle or slide like most covers.
- STAR’s double compartment models provide the commercial user with the most effective cash handling system available. Hold-up as well as burglary protection is greatly enhanced by use of this type of safe.
- Available with dual key inner compartment. Manager holds one key, the armored car driver, or employee holds the second.

When properly installed in concrete, STAR® Floor Safes provide excellent fire and burglary protection. Now, with the water resistant dust cover, you get protection from water as well.

UNDERCOUNTER SAFES

AMSEC'S UNDERCOUNTER SAFES limit excess cash register funds by providing instant protection for interim deposits of cash or checks via the anti-fish deposit slot. Securely positioning the safe next to the cash register limits exposed cash and reduces the threat of robbery and internal theft. Adaptable for multi-unit installation use, ideal for gun control, staff use, athletics clubs, security areas and much more.

FEATURES:
- Heavy gauge solid steel construction.
- Full width deposit slot over door equipped with an "anti-fish" saw tooth baffle to guard against pilferage or fishing.
- Heavy-duty piano hinges.
- Available in three models with eight different lock options to fit your specialized security requirements.
- Units can be bolted together utilizing bolt holes.
- Interchangeable doors allow flexible means of changing locking mechanisms without replacing the entire unit.
- Two anchor holes provided on all four sides.
- Attractive and durable powder coated black finish.

OPTIONS:
- Deposit envelopes.

LOCK OPTIONS:
- Chicago single key camlock equipped with two keys. (Lock option #1)
- Chicago 7 pin radial key camlock, equipped with 2 keys. (Lock option #1-T)
- Medeco® U.L. listed high security single key camlock supplied with two keys. Medeco’s restricted keyways protect against unauthorized key duplication. (Lock option #2)
- Dual custody safe deposit key lock (two keys required to open safe). (Lock option #4)
- Best removable core key lock supplied without core. A removable core system lets you change the combination of any lock in seconds and can easily expand to include new facilities. Supplied without core. (Lock option #7, without core).
- S&G Group II key changeable combination lock offers 1 million possible combinations. (Lock option #6).

NOTE: Models TB0610, TB0612 & TB1210 are available with the LaGard 33E electronic lock. (Factory installed primary lock.)

IMPORTANT:
AMSEC Undercounter safes are recommended for an operation that requires a non-returnable deposit. These safes are not meant for overnight storage of cash.
AMSEC WALL SAFES are designed to provide hidden protection for documents and miscellaneous valuables. Each wall safe is also designed for easy installation between 16” o/c wall studs. Pre-drilled anchor holes and a built-in flange eliminates unnecessary replastering.

**AMSEC WALL SAFES**

**AMSEC WALL SAFES**

**NEW! WES2114 FEATURES:**
- Heavy duty steel body, 3/16” solid steel door and flange.
- Extra spacious interior, while still offering the convenience of fitting between studs.
- Easy to use DL4000 push button electronic lock offers solid protection with the accessibility of quick entry and easy-change combo.
- Standard key override, in case of lost combination.
- Dual live bolts ensure protection against pry attacks.
- Two removable shelves.
- Cream colored, durable powder coated finish.
- Packaged for UPS shipment.

**WS1814 FEATURES:**
- AMSEC’s 5BE electronic push button lock is fast and easy to use.
- Solid steel construction with a 3/16” pry-resistant door offers burglary protection.
- Built-in enhanced LCD interior lighting is activated when door is opened.
- Comes standard with two storage shelves or one shelf with hanging file rack.
- Expandable interior provides easy installation between 16”o/c wall studs and enables depths of either 4”, 5” or 6”.

**WS1014 / WS1514 FEATURES:**
- U.L. listed Group II key changeable lock, with relock and 1 million possible combinations.
- Electronic lock optional, or Chicago single key camlock with 2 keys.
- Flat dial allows flush mounted installation.
- WS1014: 3/16” thick solid steel door with dead bar.

**WS1214 FEATURES:**
- Same features as Super Brute Floor safes. Please see page 4.
- Two removable shelves. Extra deep interior.

* 350° F, UL Listed, 1-Hr fire rated wall safe. **Specify suffix -K = Camlock

When fire is a concern, there is no better wall safe than the WFS149 or WES149.

**WFS149 FEATURES:**
- UL Listed one hour fire rating, insuring the inside temperature never exceeded 350° F (paper chars at 450° F).
- Extra deep interior, with one (1) convenient drawer shelf.
- Group 2 combination lock with knob-operated locking mechanism.
- Each safe is equipped with side locking boltwork mechanism incorporating 1/2” steel deadbolts.
- Impressive 1/2” thick door with attractive two-tone Sage finish.

**WES149 with DL4000 Electronic Lock FEATURES:**
- Same outstanding features of the WFS149 and comes equipped with our easy to operate and easy change DL4000 electronic keypad. Plus, one (1) auxiliary key lock with two (2) keys, bright blue LCD display with a low-battery indicator and a power override battery box. (See DL4000 lock features on page 20.)
BSW SERIES - THE SAFEWIZARD®

The SAFEWIZARD® Electronic Safe Controller is a state-of-the-art electronic product for use in controlling and auditing access to safes. Designed to prevent burglaries and internal theft, the THE SAFEWIZARD® controls and documents each access to the safe. Based on contemporary high speed processors, unique user friendly software techniques and ingenious application ideas, this system surpasses all other safe access control systems.

BSW STANDARD FEATURES:

DOOR:
- Massive ½" thick solid steel plate with formed body and jamb for maximum protection.
- 3-way locking mechanism using five 1" chrome plated locking bolts with bolt detent that automatically engages boltwork.
- Lock protected by a carburized hardplate with auxiliary spring loaded relocker.

INTERIOR FEATURES:
- Heavy ¼" steel door, with slam-bolt lock controlled by the SafeWizard® and a large clear door opening of 6"H x 14"W(*) or 6"H x 19"W(†).
- Storage below locker I.D.:
  - BSW2020/BSW3020: 10½" x 19¾" x 14"
  - BSW2025/BSW3025: 10½" x 24¾" x 14"
  - BSW4020: 29¼" x 19¾" x 17"
  - BSW4025: 29¼" x 24¾" x 22"
- Large “fish” resistant, pull out drop drawer accepts filled envelopes.

THE SAFEWIZARD® FEATURES:
- A powerful processor based on the ColdFire® 32 bit microprocessor.
- Up to 10,000 audit entries and 40 users.
- Controls up to 6 safe doors and 1 deposit lock. Safe doors can be configured in any inner-outer arrangement. Man Trap feature to maintain security in a safe room so the Entry Door and the Safe can’t be opened at the same time.
- Time Delay any door with a 1-99 minute delay and 1-99 minute open period with cancel feature.
- Time Lock any door, 1-6 windows per day.
- Authentication options: PIN code and/or Dallas Key access control, optional Finger Print Reader or Card Swipe devices are available.
- Wrong Try Count Penalty Lockout.
- Auto-Purge Idle Users option, selectable by Individual User.
- Forced PIN Changes to decrease risk of compromised PINs.
- Armored Car courier Time Delay and Lock Bypass.
- Duress/Hold-up Alarm with Silent Signal.
- Burglary Alarm output triggering from selectable events.
- Holiday Schedule with up to 16 programmable events per year.
- Automatic Daylight Savings Adjustment, selectable and configurable.
- Dual Control Mode on any individual door, selectable by user.
- Built-in key maker, complete with management tool set, audit trail sorting by several criteria.
- Deposit Tracking system to provide the highest level of cash management security.
- Audit trial can be downloaded to a Windows CE® based palmtop via the IR Port for compact and portable administration.
- Audit utility allows PC based audit storage management, data filter and sorting capabilities and excellent exception reporting to focus on key security issues.
- Ultra-high contrast 8 line by 21 character graphics display.
- Rechargeable Battery Backup.
- Built-in System Diagnostics.
- Parallel Printer Interface.
- English and Spanish language options.

BWB SERIES - WIDE BODY CASH CONTROL

Extensive research and development went into the engineering of AMSEC’S WIDE BODY “B” RATE CASH HANDLING DEPOSITORY SAFES. Designed to offer complete cash management versatility with a front load depository option and a pull-out deposit drawer (Model BWB3020D1 only).

BWB STANDARD FEATURES:
- Door: Massive ½” thick A36 solid steel plate.
- Formed high tensile steel body and jamb construction to maximize protection against pry attack.
- Reinforced internal jams on all four sides to provide protection against sledgehammer attack.
- U.L. listed Group II, key changeable combination lock.
- Optional electronic locks available.
- 3-way locking mechanism consisting of five 1” diameter chromed steel locking bolts.
- Bolt detent system engages boltwork automatically.
- Locks and relocks protected by a large carburized hardplate.
- Auxiliary spring-loaded relocking devices.
- Convenient, door-mounted, recessed coin rack.
- Standard Four (4) anchor bolt holes.

INTERIOR LOCKER FEATURES:
- Heavy 1/4” steel door, with Medeco® high security camlock.
- Large clear door opening:
  - 6” H x 12”W (for 20” W safes) or
  - 6” H x 14”W (for 25” W safes).
- Inside Dimensions:
  - BWB2020 / BWB3020 / BWB4020: 8½” x 19¼” x 14”
  - BWB2025 / BWB3025 / BWB4025: 8½” x 24¼” x 19”
- Note: Front Load Depository - inside locker height restricted to 6”.

DEPOSIT DRAWER FEATURES (ONLY MODEL BWB3020D1):
- Large “fish” resistant, pull out drop drawer deposits directly into standard interior locker.
- Drawer size: 1½” x 3½” x 7½”
- Heavy duty steel sliding drawer.

FRONT LOAD DEPOSITORY FEATURES:
- Recessed heavy duty 1/8” construction with 1/8” door.
- Protected by dual “anti-fish baffles.”
- Large package capacity: 4” x 9” x 11½” (maximum).
- May be ordered in any one of four directions. Specify front, reversed, right load or left load.

EACH UNIT COMES EQUIPPED WITH AN INTERIOR LOCKER TO ACCOMMODATE DEPOSITS, A LARGE INTERIOR FOR STORAGE OF CASH TRAYS AND A DOOR-MOUNTED, RECESSED COIN RACK.

IMPORTANT:
AMSEC depository safes are recommended for an operation that requires a non-returnable deposit such as armored car companies, convenience stores, restaurants, etc. The top locker is not meant for overnight storage of cash or valuables.

AMSEC'S DS SERIES DEPOSITORY SAFES are designed to provide immediate deposits and storage for cash, jewelry and miscellaneous valuables.

Deposits can be made through a locked door via a top-loading rotary hopper, a reverse or a front-loading deposit door.

STANDARD FEATURES

BODY:
- Strong, formed “B” Rate construction made of A36 solid steel plate for improved security and appearance.
- Formed door jamb for increased resistance to sledgehammer attack.
- Four anchor bolt holes are standard.

DOOR - MODEL NUMBERS: 2014, 2714 AND 3214

- ½” thick A36 solid steel plate, recessed ½” to increase resistance to pry attack.
- U.L. Group II combo lock (C), U.L. listed dual nose keylock (K).
- Optional electronic locks available.
- Three 1” diameter chromed steel locking bolts.
- Bolt detent system engages boltwork automatically.
- Auxiliary spring-loaded relocking device.
- Lock and relock protected by large carburized hardplate.

ADDITIONAL FEATURES:

WIDE BODY MODEL 2731
- DOOR: (3) 1” x ½” rectangular plated bolts.
- Unique space-efficient, side-by-side design creates full depth depository and large storage compartment.
- Accepts cash trays up to 13” x 18”.
- Optional coin rack available on storage compartment door.

HOPPER:
- 2014/2714 are available w/reverse hopper.
- Large package sizes:
  (Top Load Rotary): 4¾”D x 4¾”W x 10”L
  (Front/Reverse Load): 4”D x 2¾”W x 10¼”L
- Recessed, heavy duty 3/16” construction (¼” door).
- Protected by dual “anti-fish” baffles.

IMPORTANT:
AMSEC depository safes are recommended for an operation that requires a non-returnable deposit such as armored car companies, convenience stores, restaurants, etc. The top locker is not meant for overnight storage of cash or valuables.

†Specify Prefix: T=Top Loading, F=Front Loading, R=Reverse Hopper, K=Key Lock, C=Combo Lock, E=Electronic Lock
*Add 2” to outside depth for dial and handle projection.
**Camlock on locker, combination on deposit safe.
^Cubic inch capacity on DSF3214 change for CC and KK
AMSEC’s “B” Rate Money Manager Series Undercounter Two Door Depository Safes are the most effective cash handling systems available. Engineered to help you achieve total cash control.

AMSEC’s Money Manager Series is recommended for any operation that requires a non-returnable deposit such as armored car companies, convenience stores, restaurants, etc. The secured deposit and receiving compartments protect against mysterious disappearance and pilferage.

STANDARD FEATURES:

- Heavy duty construction with ½” solid steel doors.
- Both doors equipped with high security combinations and key locks, offering dual control.
- Optional electronic locks available.
- Handle activated locking mechanism consisting of three 1” diameter locking bolts.
- Bolt detent device automatically engages bolts when doors are closed.
- Auxiliary spring-loaded relocking device, activated by a punch attack.
- Locks and relocks are protected by a large carburized hardplate.
- Formed door jamb and full length dead bar.
- Coin racks are standard on inside of storage door.
- Fish resistant depository drops accept bulk items, drop envelopes or bags.
- Cash drawers and bulky items conveniently fit into both compartments.
- Four anchor bolts and anchor hardware included.
- Available as a “top drop,” “center drop,” or “three drop” model.
- MM2820 front load and center drop hopper measures 16¼"W x 2½"H x 3¼"D.
- Three individual color-coded 4" drops for shift control. Three deposit bins provided on “three drop” model.
- Attractive Black textured finish.
- Optional colors available upon request.

The many different features of the WIDE BODY SAFES, make them perfect for commercial application or home use.

**Standard Features for BWB and US2015C:**
- ½" thick solid steel door, recessed for resistance to pry attacks.
- Formed, high-tensile steel body and jamb construction to maximize protection against pry attacks.
- U.L. listed Group II key changeable combination lock with over 1 million possible combinations.
- Optional electronic locks available.
- Auxiliary spring-loaded relock device.
- Locks and relocks protected by a large carburized hardplate.
- Attractive Black textured finish.
- US2015: Two anchor bolt holes.
- BWB: Four anchor bolt holes.

**Additional US2015 Features:**
- Five ¾" diameter steel chromed locking bolts.
- Solid steel deadbar.
- Two adjustable shelves.

**Additional BWB Series Features:**
- Reinforced internal jambs on all four sides to provide excellent protection against sledgehammer attack.
- 3-way locking mechanism consisting of five massive 1" diameter chromed steel locking bolts.
- Bolt detent system keeps bolts retracted when the door is open, then automatically engages when door is shut.
- Convenient door mounted recessed coin rack.
- Large capacity for storage of cash trays.
- Adjustable shelves.

**Mini Safe (MS Series) Features:**
- Strong, formed "B" Rate construction made of A36 solid steel plate for improved security and appearance.
- Formed door jamb for increased resistance to sledgehammer attack.
- ½" solid steel door.
- U.L. Group II combo lock (C), U.L. listed dual nose keylock (K).
- Three 1" diameter chromed steel locking bolts.
- Bolt detent system engages boltwork automatically.
- Auxiliary spring-loaded relocking device.
- Lock and relock protected by large carburized hardplate.
- Four anchor bolt holes are standard.
- Adjustable shelf provided.
- Also available with optional deposit slot. (shown above) Slot size: ½" H x 6 W"
AMSEC “B” AND “C” RATE SECURITY CHESTS are designed to provide secure storage at an economical price. In addition to meeting the requirements of the Insurance Offices Manual of Burglary Insurance, these units offer an appearance and many features similar to AMSEC’S higher rated TL-15 models.

**STANDARD FEATURES**

**DOOR:**
- 1” (“C” Rate), or ½” (“B” Rate) steel pry-resistant recessed door.
- U.L. listed Group II key changeable lock, with relock and 1 million possible combinations.
- Additional spring loaded relocking device, activated by a punching attack.
- Locks and relocks protected by a large carburized hardplate.
- A handle activated locking mechanism consisting of three 1” chromed steel locking bolts. (five in BLB and BLC4024 models).
- Solid steel full length dead bar prevents door removal if hinges are removed during a forced entry attempt.
- Adjustable ball bearing hinges.

**BODY:**
- ½” continuously welded (“C” rate) or 1/4” (“B” Rate) solid steel bodies.
- Body reinforcing frame gives the appearance of 1” thick walls to discourage attack.
- Adjustable shelves.
- Attractive Gray textured finish. Other colors available.
- Custom sizes, interior options and high security features available.
- Left swing door optional.

AMSEC’s HOTEL AND RESIDENTIAL ELECTRONIC SAFE, with its easy installation, maintenance and management features has become a popular safe in the hospitality industry. Designed with the traveling guests in mind, the HR916E/HRC916E will adequately secure laptop computers, cameras, jewelry and other valuables in the most user-friendly safe made.

STANDARD FEATURES:

- Heavy duty steel construction offers excellent burglary protection.
- Convenient motorized locking system, incorporating the latest technology.
- Easy to read, large LED display lets you know the status of the safe.
- 4 digit combination, standard hotel room configuration (customer sets new combination every time safe is used, quickly and easily), or electronic credit card.
- Reliable ADA approved keypad.
- Electronic override can be set by security personnel.
- Runs on 4 AA batteries. If batteries should go dead, each safe has a by-pass power cable (9v battery required).
- Lock-out penalty if the combination is entered wrong, the safe will lock up for 15 minutes, frustrating the would-be burglar.
- Spacious interior fits most lap top computers.
- Two anchor holes with mounting hardware included.
- Attractive carpeted bottom hides anchor bolts.
- Electrostatic powder-coated finish in an attractive cream color.
- Guest instruction label included.
- Packaged for UPS shipment.

**OPTIONS:**

- Hand-held, print-out interrogation device, offering audit trail (HRPROG).
- Convenient 12” high safe pedestal (HRPED).

AMSEC CSC SERIES COMPOSITE SAFES are an affordable solution when you want to protect both documents from fire and valuables from burglary attacks. During extreme testing procedures the CSC SERIES COMPOSITE safes passed a 2-Hour, 350°F factory fire test certification.

**Features:**

**Door:**
- Overall thickness of 4-5/8" and is constructed with a 2" defense barrier of outer and inner steel plates creating a burglar resistant structure enclosing a unique proprietary, fire resistant material.

**Body:**
- Total protective thickness of 2-7/8" enclosing a unique, high-density fire and burglary resistant composite material.
- Durable powder coated adjustable shelves.
- Removable casters provide easy delivery and installation.

**Fire Endurance:**
- 2 hour, 350°F factory fire rating. Tested at temperatures up to 1700°F.
- Heat expandable intumescent door seal guards contents against severe fires.

**Locking Mechanism:**
- Two to four 1½" diameter solid steel chrome-plated locking bolts.
- Two to three 1½" diameter solid steel dead bolts lock deep into body preventing door removal during a forced entry attempt.
- Lock protected by a tempered glass relock device.
- Heavy duty steel hinges provide easy, smooth door operation.
- One internal counter-sunk anchor hole and mounting hardware are provided to securely anchor safe.
- Attractively accented with a full width facia panel and matching three point handle.
- Durable and attractive charcoal gray textured finish.

**U.L. LISTED FIRE RATED BURGLARY SAFES**

The AMSEC BF® SERIES offers a unique design that combines all the security features of a burglary safe and the peace of mind achieved with a fire safe. The industry’s first U.L. Listed, fire-rated burglary safe offers an affordable solution when burglary and fire protection are an essential part of your buying decision!

During Underwriter’s Laboratories grueling testing procedures, the BF® SERIES earned the U.L. Listed Class 350°F One Hour Fire Label and an E (RSC) Residential Security Container Burglary Label.

**FEATURES**

- The best warranty in the business. Lifetime fire replacement and one year parts and labor.
- “B” rated heavy duty construction.
- **Door:**
  - 3⅛” thick, consisting of ½” plate steel with a unique proprietary fire and burglary resistant material.
  - Dual seal design utilizes a silicone foam seal with a heat-expanding intumescent seal.*
- **Body:**
  - 2⅝” thick, consisting of ½” outer and inner steel plates creating a burglary resistant structure enclosing a unique proprietary fire resistant material.
  - Three massive 1” diameter solid steel chrome-plated locking bolts.
  - A full length dead bar locks deep into the body preventing door removal during a forced entry attempt.
  - U.L. listed Group II lock with spring-loaded auxiliary relock device.
  - ¼” heavy duty carburized hardplate.
  - Heavy duty steel hinges provide easy smooth door operation.
  - One recessed anchor bolt hole and mounting hardware are provided to securely anchor safe.
  - Attractively accented with a large chrome-plated dial, matching handle and a plush velour interior.
  - Durable and attractive granite finish or sandstone textured with a plush velour interior.
  - Optional electronic locks are available.
  - Optional storage cabinets available on models BF3416 and BF1716.

BF® Safes Lifetime Replacement Warranty:  
If your BF® safe is exposed to fire and failed to protect the contents, your BF® safe will be replaced free of charge. Just return the safe freight prepaid to the factory accompanied with the fire report. Contact your dealer for further details.

**BF® Safes Lifetime Replacement Warranty:**  
If your BF® safe is exposed to fire and failed to protect the contents, your BF® safe will be replaced free of charge. Just return the safe freight prepaid to the factory accompanied with the fire report. Contact your dealer for further details.

**BF® SERIES**  
Optimal Battery Operated Light Kit Available for All Models. See Page 25 for Details.

**INTUMESCENT DOOR SEAL:**  
When the intumescent seal is exposed to high temperature (above 250°F), it expands as much as 8 times its original thickness. In this expanded or reactive state, it has very high thermal insulating capacity and resistance to breakdown. This provides a strong positive seal between the door and body, preventing heat influx.

**BF® SERIES**  
Utilizing a silicone foam seal with a heat-expanding intumescent seal.*

FEATURES:
• The best warranty in the business. Lifetime fire replacement and one year parts and labor.
• U.L. listed Class 350°F two hour fire and impact rating.
• Safes withstand fires of up to 1850°F for two hours and a 30’ drop – equivalent to falling through a 2 story burning building.
• Increased barriers for burglary protection. Impressive 3½” thick recessed door with 5/8” thick front for excellent pry resistance.
• Handle activated locking mechanism with 7/8” diameter solid steel chrome plated locking bolts offering smooth operation.
• Internal anchor bolt hole with hardware.
• U.L. listed Group II key changeable combination lock with relock. 1 million possible combinations.
• Auxiliary spring-loaded relock device activated by severe attack.
• Heavy duty steel hinges provide additional security and smooth operation.
• For your convenience, rubber feet are standard on models UL1511 – 1812XD.
• Heavy duty rolling casters on UL2018 and up.
• Attractively accented with a brass-plated dial, brown powder coated handle, decorative emblems and plush velour interior.
• Available in durable Sandstone or Granite textured finishes.

U.L. SAFES LIFETIME REPLACEMENT WARRANTY:
If your U.L. safe is exposed to fire and failed to protect the contents, your U.L. safe will be replaced free of charge. Just return the safe freight prepaid to the factory accompanied with the fire report. Contact your dealer for further details.

U.L. FIRE RESISTIVE RATING
CLASSIFICATION
THE FOLLOWING IS AN EXPLANATION OF THE UNDERWRITER’S LABORATORIES’ FIRE RESISTANT CONTAINER TESTING PROCEDURES ON THE CLASS 350°F, ONE HOUR AND TWO HOUR FIRE LABELS.

U.L. Label/Class 350°F-one hour and Class 350°F-two hour. The safe will maintain an interior temperature less than 350°F when exposed to fire for a period of one hour at 1700°F or for a period of two hours at 1850°F. Safe must successfully undergo all other requirements for the Fire Endurance Test, Explosion Hazard Test and the Fire/Impact Test as stated below.

FIRE ENDURANCE TEST
After heat sensors and paper are placed inside the safe, the unit is locked and exposed to a uniformly distributed fire. The furnace is regulated to reach a maximum temperature of 1700°F for a period of one hour, or 1850°F for two hours, then allowed to cool without opening the furnace. The interior temperature is recorded throughout the test and during the cooling period until a definite drop is shown and must never exceed 350°F.

Once cooled, the unit is opened and examined for usability. The units locking mechanisms and parts fastenings are examined for security and the interior examined for visible evidence of undue heat transmission.

EXPLOSION HAZARD TEST
The safe is locked and placed into a furnace preheated to 2000°F. This temperature is maintained for 30 minutes (2 hour test is 45 minutes) and if no explosion results, the unit is allowed to cool without opening the furnace doors.

Once cooled, the unit is opened and examined for usability. The units locking mechanisms and parts fastenings are examined for security and the interior examined for visible evidence of undue heat transmission.

FIRE IMPACT TEST
(MANUFACTURER’S OPTION)
After the explosion hazard test the safe is removed from the furnace and with two minutes is dropped 30’ onto a riprap of brick on a heavy concrete base. After impact the unit is examined for deformation, rupture of parts, damaged insulation and any other openings into the interior of the unit.

Once cooled, the unit is inverted and retested to 1550°F for a period of 30 min. (2 hour test: 45 minutes at 1638°F).

Once cooled, the unit is opened and examined for usability. The units locking mechanisms and parts fastenings are examined for security and the interior examined for visible evidence of undue heat transmission.

RESIDENTIAL - ELECTRONIC AND COMBO

The economical range of our IMPORTED RESIDENTIAL FIRE SAFES (ELECTRONIC and COMBO) is the answer’s to today’s high incidence of residential fires. Our Fire Safes also provide burglary protection making them ideal for home and light commercial applications.

IMPORTED RESIDENTIAL FIRE SAFES (ELECTRONIC)

FEATURES:

ES712, ES914 / ES149 / ES1814:
- U.L. Listed 350°F, 1-Hour fire rating.
- Side boltwork mechanism incorporating two 1/2" diameter steel deadbolts prevent door removal during a forced entry attempt. (ES1814 model: 1 x 4-1/2" rectangular steel deadbolts).
- State-of-the-art DL4000 electronic lock. Combination changes are fast and easy. Emergency key-lock override system with two (2) keys, bright blue LCD display with a low-battery indicator, power override battery box, built-in spy-proof function and motion detector alert.
- One (1) drawer shelf and one (1) internal anchor hole with hardware.
- Impressive 1/2" thick door with attractive two-toned sage finish (ES1814 model: 5/8" thickness).
- Four (4) rubber feet. (ES1814 model has four rolling casters).

IMPORTED RESIDENTIAL FIRE SAFES (COMBO)

FEATURES:

FS914 / FS149:
- U.L. Listed 350°F 1-Hour fire rating.
- Models FS712, FS914 and FS149 have one (1) internal anchor hole and hardware, four (4) rubber feet and one (1) drawer shelf (except model FS712 that has a removable shelf).
- Key operated side, locking mechanism incorporating two chromed locking bolts.
- Two deadbolts prevent door removal if hinges are removed during a forced entry attempt.
- Attractive two-toned sage finish.

DL4000

Our newest ELECTRONIC LOCK

THE DL4000 ELECTRONIC LOCK FEATURES:

- Power Override Box
- Emergency Keys
- Emergency Keyhole
- Battery Compartment

OPTIONAL BATTERY OPERATED LIGHT KIT AVAILABLE FOR ALL MODELS. SEE PAGE 25 FOR DETAILS.
IMPORTED COMMERCIAL FIRE SAFES

FEATURES:

FS2215 / FS3018 / FS4622:

- U.L. Listed 350°F 1-Hour fire rating.
- Models FS2215, FS3018 and FS4622 offer a Group 2 combination lock with a Spyproof dial and ring, one (1) key-lock drawer, two (2) adjustable shelves, four (4) rolling casters for ease of movement and additional chrome "L" handle.
- Automatic relocking device triggered by force entry attempt.
- Handle operated side, top and bottom locking mechanism incorporating four to six steel chromed locking bolts.
- Two to three steel deadbolts prevent door removal if hinges are removed during a forced entry attempt.
- Ball bearing hinges for ease of operation.
- Attractive two-toned sage finish.

- Granite (GR), Sandstone (ST), Black (BK), Green (GN), NEW Chocolate Brown (CB)
## THE BF® SERIES GUN SAFES

### THE MOST UNIQUE GUN SAFE IN THE INDUSTRY

**THE BF® SERIES FEATURES:**
- ½" steel plate door (BF7250 is 3/8" steel plate) combined with 1" DryLight insulation.
- 2" total wall thickness on all sides featuring our poured DryLight insulation and two layers of steel for exceptional fire and security protection.
- U.L. Residential Security Container (RSC) Burglary Classification.
- 11 massive 1½" chrome-plated bolts. Bolt detent system holds bolts in open position.
- Mercury Class III fire protection of 1275°F for 90 minutes. Designed to maintain an interior temperature of less than 350°F.
- Commercial grade, adjustable ball bearing hinges.
- 2 Stage Dual fire seals with silicone seal on door jamb and Palusol seal on door.
- U.L. Listed Group II Lock with massive hard plate and two relocking devices.
- Spy-proof, key-locking dial with decorative five-spoke handle.
- Unique mirrored back wall for added interior visibility.
- Bold zinc die-cast polished brass, chrome or black nickel logos.
- 4 pre-cut anchor holes and 1 pre-cut electrical access hole.
- Available in several gloss and textured finishes.

### COLOR OPTIONS:

- **High-Gloss Exterior Colors:** Hunter Green Metallic (HG), Onyx (OX), Burgundy Metallic (BY), Pearl (PW), Platinum Metallic (PL), Charcoal Metallic (CM), Macadamia Metallic (MM)
- **Textured Exterior Colors:** Granite (GR), Sandstone (ST), Black (BK), Green (GN), NEW Chocolate Brown (CB)
- **Two-Tone Finishes:** Onyx High-gloss door / Black Textured body or Charcoal Metallic High-gloss door / Granite Textured body

**BF6636 WITH OPTIONAL ESL10XL ELECTRONIC LOCK**

**BF7240 Shown with Optional Stor-it Cabinets, Stor-it PDO and Fluorescent Light Kit**

**AMSEC GUN SAFE NO COST LIFETIME REPLACEMENT WARRANTY:**
- No Cost - Break-In Warranty
- No Cost - Attempted Break-In Warranty
- No Cost - Fire Warranty

See Our Gun Safe Catalog for more details.
AMSEC’s new Premium Door Organizers (PDO) maximize storage space and offer quick access to commonly used items. See Page 45 for more information.

**Storit Cabinets**

Finely crafted in solid-wood maple drawer fronts and maple veneer and finished in a rich honey maple stain. NEW recessed door pulls give these cabinets a more streamlined appearance and makes for an easier fit into a variety of AMSEC safes. All drawers are lined in dark red felt with heavy-duty, ball-bearing drawer glides and include a variety of Stor-It Jewelry Organizer Inserts. Each insert can be removed for easy viewing, selecting and protection of your jewelry. See Page 45 for more information.

**Storit Shelves**

Built with 16 ga. steel. Includes 2 hand gun storage slots. Raised edge on all shelves keep items in place. Provides convenient storage space for your safe.

**NEW! “AR” RACKS**

“AR” gun racks are fully adjustable and custom fit in the side shelf area of each “BF” series gun safe. Each rack is designed with enough clearance to accommodate extra large front sights or optics. All racks feature rich pin-dot fabric.

**BATTERY OPERATED LIGHT KIT**

This light fits any safe, yet gives off a super bright light, letting you see the contents of your safe easily. Battery operated.

**DESSICANT**

Prevents rust and moisture damage. Recommended for safes without electrical access.

**PISTOL RACK**

Ideal for organizing pistols inside your safe. This four gun pistol rack sits on top of an interior shelf.

**GUNSAVER DEHUMIDIFIER**

Will constantly guard your guns against the threat of rust, pitting and moisture damage. Electrical access is required.

**JEWELRY TRAY**

Conveniently fits into every safe. Burgundy felt lined. 10-3/8" x 9-3/8" x 2"

**FLUORESCENT LIGHT KITS**

One fluorescent light mounted vertically in back of safe for all lower compartments and one front top light for upper area. Includes connector cables, door switch and power strip.

**PREMIUM UPGRADE PACKAGE FOR HS, BF® AND SF SAFES**

When you choose to upgrade your HS, BF® or SF Series safe with a "Premium Package," we’ll add on some of our most popular options including a jewelry tray, a Gunsaver dehumidifier and a fluorescent light kit with power strip.
SF SERIES - SIXTY MINUTE FIRE

All SF Series
Safes Feature:
- ¼" Steel Plate door with 3 layers of fire insulating material.
- Mercury Class II fire protection of 1200°F for 60 minutes. Designed to maintain an interior temperature of less than 350°F.
- 2 Stage Dual fire seals with silicone seal on door jamb and Palusol™ seal on door.
- Body constructed of 12-gauge solid steel plate with a fire insulating material.
- Group II, key-changeable lock with internal relocker, spy-proof key-locking dial and drill-resistant hardplate.
- Optional electronic lock available.
- 3-spoke handle in brass, chrome or black nickel and matching bold zinc die-cast logos.
- 4-way boltwork with 5 active 1¼" chrome-plated bolts and 3 deadbolts.
- Adjustable ball bearing hinges.
- All-velour interior including back-cover and firewalls.
- Four (4) pre-cut anchor holes with mounting hardware included and one (1) pre-cut electrical access hole.
- Available in several gloss and textured finishes.
- Optional 4-shelf kit available.

8-8-16 GUN INTERIOR for Model: SF5924
8-8-16 GUN INTERIOR for Model: TF5517
CSC4520 Executive Features:

- 4-5/8” thick door constructed with a 2” defense barrier of outer and inner steel plates creating a burglary resistant structure enclosing a unique proprietary, fire resistant composite material.
- 2-7/8” thick body enclosing a unique, high-density fire and burglary resistant composite material.
- Mercury Class IV fire protection of 1850°F for 2 hours, designed to maintain an interior temperature of less than 350°F.
- Heat expandable Palusol door seal guards contents against severe fires.
- Seven 1½” diameter solid steel locking bolts.
- U.L. Listed Group II combination lock with chrome-plated spy-proof dial and a tempered glass relock device. Optional electronic locks available.
- Heavy duty steel hinges.
- Attractively accented with a full width fascia, matching three point handle and logo.
- Durable and attractive charcoal gray textured finish.
- All-velour interior with 3 adjustable shelves, 1 fixed counter top and a 6 gun rack.
- Pre-punched electrical access hole equipped with a Gun Saver dehumidifier.
- Door mounted Stor-it Pack with multiple pouches for quick access to items

One internal counter-sunk anchor hole and mounting hardware are provided to securely anchor safe.

Removable casters provide easy delivery and installation.

Standard Features of VD8030 & VD8030BF:

- U.L. Listed Group II Lock with massive hard plate and two relocking devices.
- Select from four textured finishes.
- Commercial grade, Vault Door hinges.
- New - Adjustable door frame slides together to fit a wall thickness of 4-3/4” to 9-3/4”.
- Safety Lock Release: allows you to safely exit the vault room from inside. It also allows you to close and lock the door from the inside when equipped with an electronic lock, turning your vault into a safe room.

Special Features of the VD8030BF:

- 2” thick door offers a defense barrier constructed of a ½” steel plate door combined with 1-3/8” DryLight insulation that provides a barrier against extreme heat.
- 10 massive 1½” chrome-plated locking bolts. (Note: no deadbolts required on In-Swing door)
- Spy-proof key-locking dial with matching five-spoke handle, pull handle and bold zinc die-cast logo. Available in polished brass, chrome or black nickel finish.
- 2 Stage Dual fire seals with silicone seal on door jamb and expandable Palusol™ seal on door.

Special Features of the VD8030:

- 1” thick door offers a defense barrier constructed of a 1/8” inner and outer steel plates filled with a fire insulation material that provides a barrier against extreme heat.
- 10 massive 1¼” chrome-plated locking bolts. (Note: no deadbolts required on In-Swing door)
- Elegant scrollwork and pinstripes accompanied by the renowned American Security logo. Available in silver or gold.
- Spy-proof key-locking dial with matching five-spoke handle. Available in polished brass, chrome or black nickel finish.
- Palusol™ door seal expands up to 8 times its original thickness when exposed to extreme heat.

HANDGUN SECURITY

Handgun Safe PB2
Features:
- Deep blue powder coated finish with chrome hardware.
- Heavy-duty chrome handle.
- Strong, pry-resistant chrome locking bolt.
- Interior cushioned with foam lining to protect against scratches.
- Easy to change combination with programmable override code.
- 9V DC battery provides over 5,000 openings with low-battery indicator.
- External auxiliary battery connection.
- Optional quick release anchor plate available.

Outside Dimensions:
8 x 12 x 4
Weight:
8 lbs

Drawer/Shelf Safe ES412
Features:
- State-of-the-art DL4000 electronic lock.
- Heavy 18 gauge solid steel construction.
- Pry-resistant recessed 10 gauge door with internal hinges.
- Two tempered-steel live bolts.
- Fits in a drawer and only requires 5” clearance.
- Key override system.
- Excellent for protecting valuables, handguns or laptop computers.

Outside Dimensions:
5 ¾ x 11 ¼ x 14 ½
Weight:
15 lbs
AMSEC TL-15 and TL-30 U.L. Listed MONEY CHESTS qualify for Mercantile & Broadform Insurance Class ER (TL-15) and F (TL-30) with a banking rating of BR (TL-15) and G (TL-30). AMSEC MONEY CHESTS offer the highest level of security available with many outstanding features and a wide range of options.

FEATURES

DOOR:
- DXE and CDXE models are TL-15 rated constructed of ¾" thick solid steel plate.
- DXF and CDXF models are TL-30 constructed of 1¾" thick laminated steel with a special hardened drill resistant plate.
- Oil impregnated bronze bearing hinges.

BODY:
- DXE models: Consist of ½" thick steel plate (100,000 P.S.I. minimum tensile strength). All external seams are beveled and continuously welded.
- DXF models: Consist of ¾" thick steel plate (75,000 P.S.I. minimum tensile strength). All external seams are beveled and continuously welded.
- CDXE and CDXF models: consist of 3¼" thick body constructed of inner and outer steel plates enclosing a high density composite material.
- Shelf strips installed allowing shelf adjustment. Shelves optional.

LOCKING MECHANISM:
- U.L. listed Group II key changeable combination lock, with relock and 1 million possible combinations.
- Single auxiliary spring loaded relocking device, activated by a punching attack.
- Locks and relocks protected by a large proprietary drill shattering composite hardplate.
- A handle activated locking mechanism consisting of two to five 1" chromed steel locking bolts.
- Five boltwork sizes allow AMSEC to build units from 12" (10½" for DXE/DXF) to 88" high, widths from 14" to 41".
- Solid steel dead bar prevents door removal if hinges are removed during a forced entry attempt.
- Compact locking mechanism and boltwork cover allow for optional door mounted coin racks.

HINGES:
- Fabricated from high strength steel with precision machined alloy dowel pins.
- Oil impregnated bronze bearing assures easy opening doors and reduced maintenance.
- Vertical height adjustment.

FINISH:
- Available in Black, Blue Gray, Parchment or the standard Gray textured finish.

OPTIONS:
- Spyproof dial
- Key lock dial
- Coin racks
- Managers lockers
- Interior lockers
- Interior drawers
- Adjustable shelves
- Group 1 and 1R locks
- Electronic locks
- Access Control Systems
- Key-Op locks
- Dual combination locks (some models)
- 144 hour timelock
- 15 minute time delay lock
- External day lock
- Claddings
- Anchor bolt assembly
- Left swing door
- Internal rotary hoppers
- Internal deposit slot
- Internal deposit chutes
- Hidden compartments
- Modular alarm
- Hold up duress alarm
- Special sizes
- Custom colors

*Add 2" to outside depth for handle, dial and hinge projection. Standard with two shelves. Optional 3-way boltwork available on the ACF line, retail price $160.00. Custom size/design quoted upon request.*
AMSEC’s ACF TL-30 TWO DOOR DEPOSITORY SAFE offers complete cash management versatility for any operation that requires a nonreturnable deposit such as armored car companies, convenience stores, restaurants, etc. The U.L. listed TL-30 composite construction offers peace of mind when overnight protection is required.

In addition to the outstanding features listed under ACF TL-30 Money Chest, the ACF4824DS Depository safe also offers:

TOP DEPOSIT / STORAGE COMPARTMENT
- Outer door equipped with a U.L. listed Group II combination lock and chrome plated front read dial.
- Large storage capacity: accommodates up to nine cash register trays.
- Large 3" x 18" deposit chute is protected by an “anti-fish”, saw-tooth, hinged baffle.
- Two adjustable shelves.
- Door mounted four-opening rolled coin storage rack.

BOTTOM RECEIVING COMPARTMENT
- Outer door equipped with a U.L. listed Group II combination lock, chrome plated front read dial and an auxiliary key-op lock for dual control or armored car pick up.

Options:
- Electronic locks, Group 1 and 1R locks.
- Dual combination locks (Receiving compartment only).
- Spyproof dial, Keylock dial.
- Modular alarm, Holdup alarm.
- Interior lockers, Interior drawers, Adjustable shelves.
- Custom sizes/designs quoted upon request.
- Access Control Systems.

FINISH
- Available in Satin Black, Blue Gray, Parchment or the standard Gray textured finish.

* Add 2" to outside depth for handle, dial and hinge projection. Standard with two shelves. Optional 3-way boltwork available on the ACF line, retail price $160.00. Custom size/design quoted upon request.
During extreme testing procedures, AMVAULT COMPOSITE SAFES demonstrated the ability to withstand severe attacks by experienced U.L. experts using powerful tools such as sledgehammers, power saws, carbide disc cutters, drills, etc., and without fail, were awarded the U.L. TL-15 and TL-30 labels.

Besides withstanding the most concentrated attacks by sophisticated burglars, each AMVAULT safe offers a Two Hour, 350° F factory fire test certification, ensuring the protection of the vault’s contents against intense fires.

**FEATURES:**

**DOOR:**
- Overall thickness of 5¾” and is constructed with a 2¾” defense barrier of outer and inner steel plates creating a single structure enclosing a unique, high density fire and burglary resistant composite material.
- Defense barrier houses a proprietary amalgamation of nuggets and steel fibers to withstand concentrated attacks with the most sophisticated equipment used by burglars today.
- The AmVault TL-30 offers a massive solid steel hard plate covering the entire door.

**BODY:**
- The AmVault formed body has a total protective thickness of 3½” enclosing a high density fire resistant composite material with nuggets and steel fibers.
- A reinforced drill resistant door frame protects the door and each individual bolt chamber from severe side attacks.
- A proprietary inner barrier protects against peeling attacks.
- High strength adjustable shelves.

**FIRE ENDURANCE:**
- Two hour, 350°F factory fire rating. Tested at temperatures up to 1850°F

**LOCKING MECHANISM:**
- Equipped with six to ten massive 1½” diameter chrome plated solid steel locking bolts. Each bolt moves deep into the body’s protected bolt chambers.
- Entire boltwork mechanism is also protected by a spring operated boltwork detent system. Bolts stay in the retracted position when the door is opened and automatically engage when the door is closed.

**THREE-WAY BOLTWORK OPTION (TL-30 ONLY):**
- Safes can be equipped with a three way active boltwork mechanism engaging the bolts horizontally and vertically into the body of the safe.

**LOCKS:**
- Equipped with a U.L. listed Group II key changeable combination lock. The lock is protected by a massive drill shattering hard plate and two additional spring-loaded devices.

**HINGES:**
- Offers a vertical height adjustment and utilizes an oil impregnated bearing ensuring easy door operation.

**OPTIONAL AUXILIARY KEY LOCK:**
- U.L. listed, high security auxiliary key lock is also available on all AMVAULT safes (except Model 1814). Lock is equipped with 2 keys and escutcheon plate.
- An additional spring-loaded relock device protecting lock against punch attacks.

**OPTIONAL GLASS RELocking MECHANISM (TL-30 ONLY):**
- Incorporated into the AMVAULT TL-30 auxiliary key lock is an optional high security tempered glass relock mechanism with a remotely and randomly placed “cross locking” relocking bolt and thermal cords to protect against torch attacks.
- In the event of an attack by tools, torches, or explosives, the glass will shatter activating the highly sophisticated relock mechanism.
- Utilizing the glass relock mechanism can offer up to a total of six different relock devices offering the ultimate in high security protection.
AMVAULT High Security Composite safes have passed Underwriter’s Laboratories most recent testing procedures ensuring you today’s best protection. AMVAULT TL-15 and TL-30 U.L. listed composite safes qualify for Merchantile & Broadform Insurance Class ER (TL-15) and F (TL-30) with a Bank Rating of BR (TL-15) and G (TL-30). Two Hour Class 350°F manufacturers’ fire label. Standard finish is Parchment. Other colors available on request.

**Custom AMVAULT Escutcheon Plate**

Shown with optional auxiliary key lock and pull handle, with matching operating handle.

*Tri-spoke handle standard on all models.

**Underwriters Laboratories’ Burglary Rating Classification**

**U.L. Label — Burglary Classification TL-15:**
Signifies a combination-locked safe designed to offer a limited degree of protection against attack by common mechanical and electrical hand tools and any combination of these means.

**Construction Requirements**
- U.L. listed Group II, 1 or 1R combination lock.
- 750 lbs. minimum or comes with instructions for anchoring in a larger safe, concrete blocks or on the premises where used.
- Body walls of material equivalent to at least 1” open hearth steel with a minimum tensile strength of 50,000 P.S.I.
- Walls fastened in a manner equivalent to continuous ¼” penetration weld of open hearth steel with minimum tensile strength of 50,000 P.S.I.

**Performance Requirements**
Successfully resist entry* for a net working time of 15 minutes when attacked with common hand tools, picking tools, mechanical or portable electric tools, grinding points, carbide drills and pressure applying devices or mechanisms.

**U.L. Label — Burglary Classification TL-30:**
Signifies a combination-locked safe designed to offer a moderate degree of protection against attack by common mechanical and electrical hand tools and any combination of these means.

**Construction Requirements**
Same as TL-15

**Performance Requirements**
Successfully resist entry* for a net working time of 30 minutes when attacked with common hand tools, picking tools, mechanical or portable electric tools, grinding points, carbide drills and pressure applying devices or mechanisms, abrasive cutting wheels and power saws.

*Entry=Safes classed as TL-15 — opening the door or making a six square inch opening entirely through the door or front face. Safes classed as TL-30 — opening the door or making a six square inch opening entirely through the door or front face.
AMSEC offers a wide variety of options not listed here. Consult your AMSEC price book or call for other available options. AMSEC’s staff will also assist in helping you choose the correct options for your security needs.

**Modular Alarm System**
Detects vibration, heat and door openings. Heat indicator activates alarm when torch attack occurs. Internal magnetic door contact detects door opening. Internal vibration sensor activates alarm if safe is moved or during drill attack.

**Interior Drawers**
All drawers are commercial quality, heavy steel construction. Available in letter, legal and document sizes. Each is furnished with handle and key lock. All drawer capacities are 150 lbs. and come with a heavy duty latch removable ball bearing suspension.

**144 Hour Time Lock**
Safes equipped with Time Locks offer the capability of locking the safe for a pre-selected period of time. Time periods range from one hour to 144 hours (6 full days).

**U.L. Listed Dual Nose Key Lock**
Dual control safe deposit lock requires two different keys to open safe.

**U.L. Listed Key Op Lock**
European style seven-lever changeable key lock offers exceptional security features for use on inner locker or outer safe doors.

**U.L. High Security Key Lock**
European style nine-lever changeable key lock offers exceptional security features for use on inner locker or outer safe doors.

**Spyproof Dial**
Restricts unauthorized viewing while dialing combination. Also available with key locking feature.

**Key Locking Front Read Dial**
Key is used to lock dial in a fixed position and affords dual custody control. Manager has the combination, collector has the key. Both must be present to unlock the safe.
**Interior Lockers**
AMSEC offers a wide variety of standard interior locker compartments to fit your needs. Standard lockers are constructed of 10 gauge or ¼” solid steel. Options include slotted doors, combination locks and high security key locks.

**Slotted Doors**
Slotted doors are also available on freestanding plate safes, freestanding clad, composite chests, interior lockers and interior drawers.

*Note:* Safes with slotted doors are not recommended for overnight storage.

**Interior/Exterior Hopper**
Available in three different package sizes ranging from 5½" D x 3½" W x 8¾" L to 7" D x 4½" W x 10¾" L.

Hoppers can be installed on the interior or exterior of plate, clad or composite safes.

**Locking Bolt Detent**
Keeps locking bolts retracted when door is in open position. Prevents damage to safe body and boltwork mechanism caused by accidental door closure with bolts extended.

**Coin Racks**
For organized storage of coins. Mounted on inside safe door. Available with four or six compartments.
TELLER LOCKERS

FEATURES:

CUSTOM SAFES

AMSEC specializes in manufacturing CUSTOM SAFES for supermarkets, banks, restaurants, convenience stores, gas stations, hotels, mini-marts and other businesses. With over 50 years experience building custom safes, AMSEC has the knowledge and expertise to design a safe to meet your cash handling requirements. Our engineering department is equipped with the latest in computer-aided design (CAD) systems for rapid creation of detailed sales sketches, concept drawings, final product prints and design modifications to help you visualize how the safe will look and function. Custom safes are available in every insurance classification from "B" Rate to U.L. listed TL-30 models.

**AMSEC SAFEWIZARD®**

The SafeWizard® electronic safe controller is a state-of-the-art electronic product for use in controlling and auditing access to safes. Designed to prevent burglaries and internal theft, the SafeWizard® controls and documents each access to the safe. Based on contemporary high speed processors, unique user friendly software techniques and ingenious application ideas, this system surpasses all other safe access control systems.

**FEATURES:**
- A powerful processor based on the ColdFire® 32 bit microprocessor.
- Flash Memory for quick and cost effective upgrades.
- Up to 10,000 audit entries and 40 users.
- Controls up to 6 safe doors and 1 deposit lock. Safe doors can be configured in any inner-outer arrangement.
- Time Delay any door with a 1-99 minute delay and 1-99 minute open period with cancel feature.
- Time Lock any door, 1-6 windows per day.
- Authentication options: PIN code and/or Dallas Key access control, optional Finger Print Reader or Card Swipe devices are available.
- Dallas Keys are color-coded: Factory Key (Black), Audit Key (Yellow), Manager Key (Red), User Key (Blue) and Courier Key (Teal).
- Wrong Try Count Penalty Lockout.
- Auto-Purge Idle Users option, selectable by Individual User.
- Forced PIN Changes to decrease risk of compromised PINs.
- Armored Car courier Time Delay and Lock Bypass.
- Duress/Hold-up Alarm with Silent Signal.
- Burglary Alarm output triggering from selectable events.
- Holiday Schedule with up to 16 programmable events per year.
- Automatic Daylight Savings Adjustment, selectable and configurable.
- Dual Control Mode on any individual door, selectable by user.
- Built-in key maker, complete with management tool set, audit trail sorting by several criteria.
- Deposit Tracking system to provide the highest level of cash management security.
- Communications possibilities are unrivaled. Incorporating a built in Infra-Red (IR) Port, Multiple Serial Devices, optional Ethernet Networking Port. Audits and administration can be managed through the Serial Port of Personal Computer or remotely via a Network connection.
- Audit trail can be downloaded to a Windows CE® based palmtop via the IR Port for compact and portable administration.
- Audit utility allows PC based audit storage management, data filter and sorting capabilities and excellent exception reporting to focus on key security issues.
- Ultra-high contrast 8 line by 21 character graphics display.
- Rechargeable Battery Backup.
- Built-in System Diagnostics.
- Alarm Interfaces in the Power Supply Module interfaces the system to any conventional Alarm System, with simple connections for Alarm Output, Duress Output, CCTV Activation and an Input for Alarm System control of the SafeWizard system.
- Parallel Printer Interface.
- English, Spanish, French and German language options.

**THE AMSEC SAFEWIZARD ELECTRONIC ACCESS CONTROL SYSTEM IS AVAILABLE ON NEW AMSEC SAFES OR AS RETROFIT KITS.**

**Authentication Options:**

**Dallas Keys**

**Card Swipe**

**FPC Fingerprint Reader**

**Accessories:**

**Door Sensor**
Monitors door position (standard on external doors)

**SafeGuard**
Protects controller against accidental damage
AMSEC has been a pioneer in the electronic lock market. The ESLXL SERIES locks offer unrivaled value in electronic safe access. The ESL10XL and ESL20XL locks have the best blend of features and function in Electronic Safe Locks. The ESLXL SERIES offer an attractive metal die-cast keypad housing with an alpha-numeric slanted keypad. The ESL10XL is a basic keypad lock for home and office applications. The ESL20XL offers advanced features necessary for commercial applications.

**ESL10XL FEATURES:**
- Replaces most mechanical combination locks. Easy installation and operation.
- Factory Reset Combination for solving lost combinations without requiring expensive service calls.
- Electronics are encapsulated within the lock and are sealed to prevent possible moisture related failures.
- Cable fits through a ½” spindle hole without cutting and re-crimping connector.
- Audible beep and flash from every keystroke gives maximum feedback to the user.
- 15 minute Penalty Lockout after four incorrect entries protects against manipulation attempts.
- New patented dead-latched lock design with an internal relock device for maximum security.
- Lock “auto-locks” when boltwork is thrown to prevent safes from being left in a day lock position.
- Slam Bolt version for locker applications.
- Optional internal battery pack extends operation between battery changes.

* Lock factory installed in place of the standard Mechanical Combination Lock, Dial and Dial Ring.
** Lock factory installed as an auxiliary lock, includes all mount pads and hardware for installation.

Please refer to our Retail Price List for a complete list of part numbers for primary lock, auxiliary lock and Retrofit kit options.

**ESL20XL ADDITIONAL FEATURES:**
- Time Delay Mode: Delays can be set from 1 to 99 minutes.
- Multiple User Mode: When enabled, one Master code and eight user codes are available with full supervisory control and code management.
- Dual Control Mode: The lock can be programmed to require two combinations to open for added security.
- Armored Car Override: When enabled, allows an armored car service to bypass Time Delay.
- External A/C Power: Provides power for unlimited use with battery power as backup.
- Control Port: Turn the ESL20XL on/off with an Access Manager, Alarm System or other device.

**Optional Expansion Modules:**
- Provides these additional capabilities on the ESL20XL:
  - Duress (Silent Signal) Alarm Output. Provides relay output for alarm system connection.
  - External connection for A/C power transformer on ESL20XL and ESL10XL.
  - Externally control for control port.
  - Provides for connection of one or two ESL20XL locks.

AMSEC BIOMETRIC ELECTRONIC LOCK

AMSEC’s NEW Biometric Series Electronic Lock incorporates patented fingerprint technologies to offer customers a high end system for safe applications. It features a unique Self-Learning software function, user-friendly LCD info display, programmable Time Delay / Time Window, and 30 fingerprint user capacity. The Biometric Series Electronic Lock provides a complete control system to safeguard your valuables.

Features:
- U.L. Type 1 listed.
- Patented OneTouch™ auto fingerprint verification
- Unique Self-Learning function
- Battery saving design with one 9V battery operation and low battery alert
- Multiple Users
- Programmable Time Delay 0-99 min.
- Wrong password lock out
- User-friendly LCD Display
- Brass or Chrome Finish

SARGENT AND GREENLEAF COMPTRONIC™

Standard features on all COMPTRONIC™ Electronic Safe Locks:
- All Combination changes and programming are easily made at keypad.
- Uses two (2), 9V Alkaline batteries - Duracell® recommended.
  (E-Z keypad uses (1) 9V battery.)
- Keypad feedback with beep and LED flash.
- Multiple users.
- Programmable Time Delay.
- Motor driven bolt.
- Wrong combination try penalty.
- U.L. Type 1 listed.

COMPTRONIC™ Keypad Finishes:
- Chrome - satin or bright.
- Brass - satin or bright.
- Black - matte only
- Gold - 14K or 24K

Optional Security Enhancement Accessories:
- Spy-Proof ® Cover.
- Time Delay Status Indicator.
- Bolt Position Indicator.
- Duress and Remote Activation Modules.
- Audit Trail (Model 6124/25 only).

For detailed specifications, visit www.sglocks.com

KABA-MAS AUDITCON® 2

Featuring PowerStar Technology:
Use of an internal generator creates all the necessary power. No batteries or external power is required.

Model 52 Series:
- Stand-alone, single combination access control.
- Dual Mode (2-user) function that provides a small business or individual with the convenience of electronic locking.
- Model T52 meets all specifications of the Model 52, plus is fitted with a time delay feature.

Model 252 Series:
- Offers advantages of basic electronic locking.
- Programmable keypad with resetable combinations.

For detailed specifications, visit www.kaba-mas.com
**LG BASIC II**
Electronic Lock

**Standard Features:**
- Manager Mode.
- Wrong Try Penalty.
- Outside Battery Compartment (Located under input housing).
- Uses one (1) user-supplied 9V Alkaline Battery.
- Satin-Chrome Angular Input Housing (Brass Optional).
- U.L. Listed.
- Made in USA.

Part # 3715 Angular Round Entry
Part # 3765 Dual-Handed Swing-Bolt

---

**SAFEGUARD**
Digital Combination Lock

**Standard Features:**
- Direct Replacement - Most Mechanical Combination Locks.
- Wrong Try Penalty.
- Optional Features: Programmable at any time by Authorized Service.
- Uses user-supplied 9V Alkaline Batteries.
- U.L. Listed.
- Made in USA.

**Programmable Features:**
(with Optional Hand-Held Programmer)
- Second user.
- Time Delay
  - Delay Period: 1-99 minutes
  - Open Period: 1-19 minutes
- Time Delay override.
- Dual Combination.
- Silent Signal Alarm
  - Optional box required
- Remote Override Signal
  - Optional Alarm box required

Part # 4100 Swingbolt Lock

---

**SMARTLINNC**
Serial Access Control

**Standard Features:**
- Wrong Try Penalty.
- Signal to Disable Lock.
  - Optional Alarm/Battery Box required
- System Status shown on LCD or optional printer.
- Audit trail by way of optional software.
- Optional battery box contains six user-supplied C-Cell Alkaline Batteries.
- U.L. Listed.
- Made in USA.

**Programmable Features:**
- Manager Mode.
- Multiple users.
- Dual Combination.
- Time Delay
  - Delay Period: 1-99 minutes
  - Open Period: 1-19 minutes
- Time Delay override. (#9 osev).
- Silent Signal Alarm
  - Optional box required
- Time Lock set, 4 standard lock periods per day. (Special events takes precedence over Standard Week).
- Languages: Manager LCD display in English, Spanish, French, German or Italian.

MATERIALS HANDLING EQUIPMENT

Provide a higher level of service to your customer with AMSEC’s new line of MOVING EQUIPMENT, giving you the capability to deliver and install any size safe -- quickly and safely!

**Lift ‘N’ Roll**

- Load is always stable and balanced.
- The hydraulic rams allow easy raising and gentle lowering of load from 1/8” to 4½”.
- Non-marking polyurethane wheels and padding system.
- Two handles on each side provide ease of maneuvering.
- Lightweight design. Built to last.
- Sturdy steel construction.
- Capacities up to 1,500 lbs.

**UltraLift**

**Powered Hand Truck**

Designed to meet your on-the-job requirements, the UltraLift is the best move you will ever make. Machine weight includes strap bar, 4-wheel dolly and spill-proof gel cell battery. Minimum overall machine height is with extension handle retracted for moves in restricted areas. Maximum height is with handle fully extended for maximum leverage:

- Great versatility: Handle any load on the level, up and down the stairs, on and off trucks, over obstacles and many more.
- Light-weight aluminum stands up to years of rough use.
- Level loading - deck remains level through out raising and lowering.
- Full width rear ramp angle allows easier loading.
- Hydraulic System activated by a single lever.
- Oversized deck bearings rated for 80,000 lbs. - each bearing greaseless and sealed.
- Automatic latch locks upon raising for added travel security.
- Battery, pump and motor are enclosed in a lockable compartment.
- Lockable tool box - ideal for storing chain binders, tie down straps, etc.
- Heavy duty adjusting tongue jack.
- Lights Standard.
- Charcoal powder coated finish.
- 1 Year Manufacturers Warranty.

**Triple L Trailer**

The design of this patented, innovative trailer is the result of Premco’s extensive engineering and testing procedures. Triple L Trailers offer the highest quality and best value of any trailer on the market!

**Features:**

- Heavy duty tubular chassis - steel diamond deck plate supported by 4 tubular members running the full length of the deck to give complete wheel support for heavy loads.
- The operator stays in control by using a combination of motor power, balance and leverage.
- One person can easily handle every load, even up and down the stairs, reducing labor costs.
- Gentle handling eliminates bumps and bounces to loads and premises, eliminating damages.
- Pay-off is approximately 21 installs (based on a national average of $200 per install).
- Load capacity up to 1,500 lbs. Machine weight is 120 lbs.
- Optional accessories available. See AMSEC's Retail Price Book.
- Level loading - deck remains level through out raising and lowering.
- Full width rear ramp angle allows easier loading.
- Hydraulic System activated by a single lever.
- Oversized deck bearings rated for 80,000 lbs. - each bearing greaseless and sealed.
- Automatic latch locks upon raising for added travel security.
- Battery, pump and motor are enclosed in a lockable compartment.

STOR-IT CABINETS

These elegant, well-appointed 2-DRAWER AND 4-DRAWER INTERIOR CHESTS are finely crafted in solid-wood maple drawer fronts and maple veneer and finished in a rich honey maple stain.

NEW recessed door pulls give these cabinets a more streamlined appearance and makes for an easier fit into a variety of AMSEC safes. All drawers are elegantly lined in a silky, dark red felt with heavy-duty, ball-bearing drawer glides and include a variety of Stor-It Jewelry Organizer Inserts. Each insert can be removed for easy viewing, selecting and protection of your jewelry.

2-DRAWER OPTION:
- Top drawer features a three compartment ring organizer and a seven compartment jewelry organizer. Drawer two features a three compartment necklace organizer. Drawer three features a four compartment watch organizer. Drawer four can be used for bulky items, or add more Stor-It Jewelry Organizers.
- Outside Dimensions: 16⅝" x 16" x 14½"
- Weight: 29 lbs.

4-DRAWER OPTION:
- Top drawer features a three compartment ring organizer and a seven compartment jewelry organizer. Drawer two features a three compartment necklace organizer. Drawer three features a four compartment watch organizer. Drawer four can be used for bulky items, or add more Stor-It Jewelry Organizers.
- Outside Dimensions: 16⅝" x 16" x 14½"
- Weight: 29 lbs.

STOR-IT JEWELRY INSERTS

- 3-Compartment Necklace Organizer
- 3-Compartment Ring Organizer
- 7-Compartment Jewelry Organizer
- 4-Compartment Watch Organizer

STOR-IT CABINETS ARE AVAILABLE IN THE FOLLOWING SAFE MODELS:

CSC MODELS: CSC3018* AND CSC4520*

* No kit needed. Drawers slide right in.

STOR-IT PDO

PREMIUM DOOR ORGANIZER:
AMSEC’s new Premium Door Organizer (PDO) maximizes storage space and offers quick access to commonly used items. All PDO’s include:

- Various see-through pouches and zippered pockets to store valuables.
- Two rows of holders for storage of choke tubes, small flashlights and ammo.
- Two full-width pistol storage systems to accommodate multiple handguns. Comes with four holsters. Additional holsters can be purchased separately.
- A long gun storage system that accommodates two guns. Includes the AMSEC exclusive “no hassle” quick release band.
- Models PDO7250 and PDO7240 offer a zippered pocket large enough to store letter size folders.

The AMSEC Stor-it PDO can be factory installed on all BF® series gun safes and select SF and TF series gun safes.

NOTE: Always check inside clearance before closing door.
